Garden exploding???

Put your excess garden produce to good use by contacting [Willing Hands](#) to pick up and distribute foods to needy families. Learn more at [Vermont Gleaning Collective](#) on how to volunteer, offer foods or obtain foods.

How could trees save the planet?

The [study](#) shows that the space available for trees is far greater than previously thought, and would reduce CO2 in the atmosphere by 25%. Read [MORE](#)

Identifying wetlands

You do NOT need a permit if the activity is related to food or crops, ie, pasture fencing, plowing or spreading manure

You DO need a permit to build new farm structure or opening up new fields in a wetland.

Need help, [contact Rebecca](#)

Coltsfoot, small, next to the much larger Japanese butterbur which is an invasive plant near streams and wetlands. Recently discovered in Woodstock, sightings should be reported, [HERE](#) is how.

Three Natural Ways to Reduce Mosquito Bites

There's no way to avoid having a fatal impact on beneficial insects, such as bees, butterflies, & other wildlife when spraying broad-spectrum insecticides (regardless of what companies who spray tell you). [Here](#) are some ways to help nature and protect you.

Passing Lands Pop-ups

Tuesday, August 20 FREE

5:30pm – 9:30pm

Vermont Institute of Natural Science, Quechee, VT

Wondering what it would mean to conserve your land with a land trust? Have

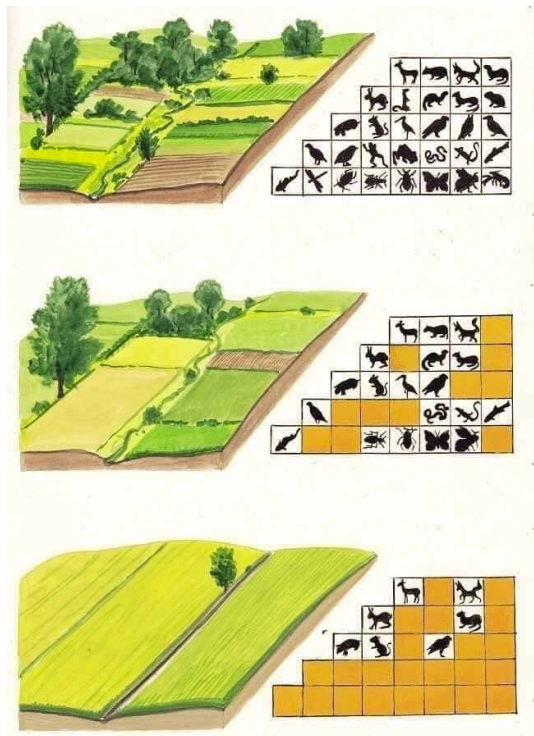

questions about Current Use? These and others can be addressed as you rotate between the experts. Register [HERE](#) or call Lisa 802-877-2777

Lawns are the #1 Irrigated Crop in America
American lawns have so, so much potential that is going to waste. It's time to culturally stigmatize the classic over-watered, over-fertilized, over-mowed American lawn and bring back native grasses and flowers. [READ](#)

NOT a giant mosquito
It is a crane fly - Learn [MORE](#)

GOT CHICKENS? Emptying a few cans of corn into a muffin tray, adding water & then freezing it is a very small act of kindness. On hot days, it'll mean the world to the chickens! Pecking away at an ice block to finally be rewarded with a cold corn kernel is a great way to help them keep cool.

Wed, August 14th. 1 pm - 5 pm.

opening day of zucchini season

Hands-on Workshop:

"Understanding the Soil Sponge and Green Stormwater Infrastructure"

\$75 per person (no lunch).

Cedar Circle Farm, East Thetford VT
